

AVIGILON WORKSTATIONS

HIGH-PERFORMANCE SUPPORT FOR YOUR SECURITY SYSTEMS

The Avigilon Workstation lineup offers a simple and easy way to bring high-resolution monitoring to new and existing systems. Avigilon Workstations are available in two forms. The 6th Generation Remote Monitoring Workstations are used to watch video from a cluster of Network Video Recorders (NVRs) or appliances at a site, whereas the NVR4X Workstation is a combined recorder and client workstation that serves as a simple and easy way to implement additional high-resolution monitoring stations to existing systems. Avigilon's workstations are quick to deploy, and provide a powerful lineup of client workstation variants to complement Avigilon site deployments.

AVAILABLE IN TWO FORM FACTORS:

- Remote Monitoring Workstation (6th Generation)
- NVR4X Workstation

FEATURES

TESTED PERFORMANCE

The Avigilon Workstation lineup has been stress tested through various component combinations for the highest performance for ACC workloads.

EASY RECOVERY

A purpose-built and turnkey solution that is simple and secure for Security and IT teams to deploy.

ALL-IN-ONE SOLUTION

The NVR4X Remote Workstation delivers an all-in-one solution for small to medium sites that need local recording and playback.

SMALL FORM FACTOR

Its streamlined size and design reduces hardware footprint for space-constrained areas, while still serving as an all-in-one workstation that is able to record and monitor video.
