

OH110, OP110, HI110, HI112

Cerberus™ FIT

Automatic fire detectors, 110-series

For collective and conventional detector lines

-
- Signal processing with detector algorithms
 - Selectable parameter sets
 - 3 color LED indication
 - Drift compensation
 - Internal fault monitoring
 - Fault indication

Characteristics

- **Environmental**

- ecologically processing
- recyclable materials
- electronic and synthetic material simply separable

- **Characteristics**

- resistant to environment and interference factors such as dust, fibers, insects, humidity, extreme temperatures, electro-magnetic interference, corrosive vapors, vibration
- insensitive to impact, tamper protection
- protected electronics, high-quality components
- built-in alarm indicator (AI), visible at 360°
- up to 2 external alarm indicators of type FDAI91/FDAI92/FDAI93 connectable per detector
- signal processing with detection algorithms
- the same detector base type can be used for each detector type, for surface and recess supply wiring

- **Optional accessories**

- Detector locking device LP720 as protection against theft
- Designation plate FDBZ291
- Detector base seal RS720 for higher protection category
- Micro terminal DBZ1190-AA (0.28 ... 0.5 mm²)
- Connection terminal DBZ1190-AB (1.0 ... 2.5 mm²)

OH110 Multi-sensor smoke detector

Multi-sensor smoke detector consist of:

- Detector
- Dust cap to cover the detector for protection against dust during construction work

Function

- Works according to the scattered light principle with one sensor, optical forward scattering
- Opto-electronic sampling chamber holds off disturbing extraneous light but optimally detects smoke particles
- an additional heat sensor increases the fire detector's immunity to deceptive phenomena
- Selectable detection behavior by 2 parameter sets
 - Parameter set 1: Sensitive
 - Parameter set 2: Robust
- immunity against transient false alarm causes

Application

- for the detection of flaming fires caused by the combustion of liquid and solid matters, as well as smoldering fires
- for reliable fire detection in environments with deceptive phenomena

OP110 Optical smoke detector

Optical smoke detector consist of:

- Detector
- Dust cap to cover the detector for protection against dust during construction work

Function

- Works according to the scattered light principle with one sensor, optical forward scattering
- Opto-electronic sampling chamber holds off disturbing extraneous light but optimally detects smoke particles
- Selectable detection behavior by 2 parameter sets
 - Parameter set 1: Standard
 - Parameter set 2: Sensitive

Application

- for the detection of smoke-generating flaming and smoldering fires

HI110 Heat detector (RoR)

Heat detector consist of:

- Detector

Function

- Equipped with one heat sensor
- For high requirements
- Certain response behavior with slow and fast temperature increases, also by depth temperature
- Parameter set: A1R

Application

- For areas having high levels of dust, dirt or moisture that may lead to false activating with smoke detectors

HI112 Heat detector (static)

Heat detector consist of:

- Detector

Function

- Equipped with one heat sensor
- Measures the ambient temperature, when the maximum temperature is exceeded the detector sends a danger signal to the fire control panel
- Selectable detection behavior by 2 parameter sets
 - Parameter set 1: A2S
 - Parameter set 2: B

Application

- For areas having high levels of dirt or temperature fluctuation that may lead to false activating with smoke detectors

Detector base DB110 (Parameter set 1)

Function

- Standard conventional detector base for all series 110 point detectors
- Selects parameter set 1 within detectors

Application

- for recess supply wiring
- for surface supply wiring, cable diameter up to 8 mm

Detector base DB110D (Parameter set 1) for BS5839 Part 1

Function

- Conventional detector base complete with a continuity diode for all series 110 point detectors
- Selects parameter set 1 within detectors

Application

- for recess supply wiring
- for surface supply wiring, cable diameter up to 8 mm

Detector base DB110R (Parameter set 2)

Function

- Conventional detector base complete with a resistor for parameter setting for all series 110 point detectors
- Selects parameter set 2 within detectors

Application

- for recess supply wiring
- for surface supply wiring, cable diameter up to 8 mm

Detector base DB110RD (Parameter set 2) for BS5839 Part 1

Function

- Conventional detector base complete with a resistor for parameter setting and continuity diode for all series 110 point detectors
- Selects parameter set 2 within detectors

Application

- for recess supply wiring
- for surface supply wiring, cable diameter up to 8 mm

Base attachment BA720

Application

- For the supply of surface-mounted tubes (max. 20 mm) and trunking (max. 25 mm x 15 mm)
- The detector is fixed with a spring-loaded catch.

Installation

- **Simple installation**

- Universal base with
 - 2 break outs on the side for surface supply wiring at max. Ø8 mm
 - extra large rear opening for easy recess supply wiring
- extra-large mounting slots facilitate a re-use of existing drill holes resulting from other systems
- connecting terminals for cable diameter at 2.5 mm²
- place for auxiliary terminals 2x DBZ1190-AA and 2x DBZ1190-AB

Place for auxiliary terminals DBZ1190-AA, DBZ1190-AB Connecting terminals detector line and ext. AI Opening for cable entry AI

- alarm indicator (AI) centered in the detector; no alignment required

LP720 Detector locking device

- to protect the detector against theft

FDBZ291 Designation plate

- to identify the location address
- application without detector base seal RS720 only

RS720 Detector base seal

- for higher protection category

DBZ1190-AA Micro terminal, DBZ1190-AB Connection terminal

- For conductors of max. 0.5 mm²

- For conductors of max. 2.5 mm²
- Support point for T-branching connection, extern alarm indicators (AI) or cable shielding
- Place for max. 2 additional terminals each

Dimensions of detector with base

Technical data

	OH110	OP110	HI110 / HI112
Operating voltage	DC 16 ... 28 V	DC 16 ... 28 V	DC 16 ... 28 V
Operating current (quiescent)	Max. 100µA	Max. 100µA	Max. 100µA
