

Alta H6A Dome and Bullet Cameras

Turn sight and sound into improved safety

Focus your security with Avigilon H6A Dome & Bullet cameras. Offering resolutions up to 8 MP and integrated AI-driven video and audio intelligence, this enables faster activity detection and proactively streamlines investigations with high-quality evidence.

High-definition coverage

Get the clarity you need with video up to 8 MP. Secure large areas with long-range analytical detection, optimizing coverage while potentially reducing hardware count.

Durable, all-weather design

Deploy with confidence in challenging environments. Rated IK10/11, IP66/68, and NEMA Type 4X, the H6A Dome & Bullet withstands impact, water, and corrosion, providing continuous security.

AI-powered video analytics

Transform video into instant insights with built-in analytics that alert teams to abnormal behavior and critical events, enabling quicker, more informed responses.

Integrated audio awareness

Expand beyond sight with a built-in microphone for advanced alerts for sounds. Review the corresponding video instantly, with the option to record necessary audio evidence for review.

Trusted security, built-in

Secure from the ground up with advanced cybersecurity features, including FIPS 140-3 rated Trusted Platform Module (TPM) and Secure Boot.

Cloud-managed convenience

Manage your sites from anywhere with a cloud-native platform. Automatic software updates deliver the newest features and security protections seamlessly, reducing maintenance overhead.
